BRATTLEBORO WON EASILY. Had No Trouble in Defeating the

Had No Trouble in Defeating the Leominster Independents.

The Brattleboro football team, with several substitutes in the line, easily defeated the Leominster, Mass., Independents on the island Saturday afternoon by a score of 15-0. The visitors were hardly heavy enough to give the local team a thorough try-out although in the second half they showed up to good advantage on account of their better condition. Brattleboro was weakened by the absence of King, Mellen and Allen who are strong forwards and Cooley, captain and fullback. The line was practically composed of green men. Howe, Longuil, Trendall, Wallen and Stafford never having played in a regular game before. They did extremely well, however, and bid fair to become fast and aggressive players with a bit more experience. The best work for Brattleboro was done by Conland on the offensive and Barber on the defensive. The former did a greater part of the ground gaining while the latter repeatedly downed the runner for a loss. Ferriter and Williamson both did some good end running, and March at quarter ran the team with judgment. For the visitors the best work was done by H. Cantwell and Grimes.

All the scoring was done in the first half in which the home team was not once held for downs. After rushing the ball to within a few yards of the goal dine and then losing it Brattleboro finally reached striking distance again. On the play in which Williamson was to carry the ball over there was a fumble but Stafford fell on the leather be-Leominster Independents.

On the play in which Williamson was to carry the ball over there was a fumble but Stafford fell on the leather behind the goal posts thereby scoring the first five points. The other two touchdowns were made by Conland after a series of consistent gains. In the second half the Leominster players showed their superior wind by repeatedly holding the heavier Brattleboro team for downs and on one occasion. team for downs and on one occasion making their distance. The bedroom should be quiet, has been visiting her sister, Mrs. L. J. dark and airy. In winter it is better to have the window away up than Chicago where she and Mr. Wright will ter to have the window away up than to shut it so that a knife-edged draft shall chill an exposed shoulder. The temperature of the bed should be agreeable. Getting to sleep when the feet are cold is as slow a job as getting to sleep when hungry. A hot water bottle in one case and a piece of bread and butter in the other will help things. I leave it to you to decide which is for which. A warm bed in winter is easily got, but a cool bed in summer is not so simple a proposition. However, a sheet made of straw matting, inter-posed between the regular sheet and the mattress, will be found to mitigate sensibly the horrors of a hot night. It preserves the softness and springi-ness of the bed and yet is pleasantly cool, without being too cool. Person-ally, I find that sleep comes soonest when I have no pillows at all.

The next thing is to relax utterly.

Remember that the corner of the jaw is the citadel of tension. While that is clinched no sleep can come. The rea-son why we fail in this is the same as clinched no sleep can come. The reason why we fail in this is the same as the reason why we fail in other things. We do not genuinely want to succeed. As we lie stretched out after a busy day there are so many thoughts Monday to make preparations toward the management of the Montpelier Grocery Co., which is to be organized with the following subscribers: E. As we lie stretched out after a busy day there are so many thoughts that we want to chase after that we drop the notion of sleep, though we know that to-morrow is another day on which we can think. It is all very well to say "Dismiss these thoughts." How to dismiss them is the problem that each must solve.—Everybody's Magazine.
